HPFi[®] Introduces Duality Training Tables

HPFi (High Point Furniture Industries) is pleased to announce the introduction of the **Duality** training table collection. **Duality** tables feature a tilting top that allows tables to be nested for ease of movement and compact storage. Tables can be pulled out and set up when needed, then tucked away when the meeting is over.

Duality tables are available in the selection of HPFi standard laminates. Thermally fused laminate tops are protected by AdvantEdge™ 3mm edge banding to protect not only the top from nicks and dings, but also the user. High pressure laminates and custom edge treatments are also available to adapt **Duality** to a variety of design forms. The all steel construction of the double tube bases with a durable support beam ensure years of durable service. The flip mechanism is of superior quality and very easy to activate to flip tops to a vertical position. **Duality** training tables will be available for shipment in mid- to late July, 2018.

“**Duality** is a clean table design that offers high end functionality and quality at a mid-market price point.”, Vice President of Sales for HPFi. “The design of these table provide a flexible solution to meeting and training rooms.”

HPFi operates a 4,100 sq. ft. showroom and two manufacturing facilities in High Point, North Carolina with over 400,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.
