HPFi[®] Introduces Flex Lounge Seating

HPFi (High Point Furniture Industries) is pleased to introduce the Flex Lounge seating line. Flex Lounge seating bridges the gap between the casual Flex Ottoman seating and Flex Tiered seating with a modular lounge approach. Comfortable seats and benches are modular and may be easily re-configured for meetings or casual gatherings.

The Flex Lounge seating design is based on 20” deep seats and 10” backs to create an endless variety of seating arrangements. 30” high padded backs even make a brief touchdown painless. Flex Lounge also includes 2-sided seating which are ideal space-saving configurations for dining halls. The HPFi PowerFlex power and charging modules with 110-volt receptacles and active USB ports can be placed in numerous positions to support a mobile lifestyle - at work or on campus.

“The HPFi Flex Lounge series offers the perfect alternative seating option for collaborative work and learning environments” said Doug Gaines, Vice President of Sales for HPFi. “Our American-made commercial grade craftsmanship team with a mid-market price point is second to none in bringing value to the marketplace.”

HPFi operates a 4,100 sq. ft. showroom and two manufacturing facilities in High Point, North Carolina with over 400,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For additional information on HPFi, please contact Tom Carrigan, Vice President of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336.431.7101 Ext. 2241, Fax: 336.431.0673, Email: TomC@hpfi.com.
