HPFi[®] Expands Flex Tiered Seating

HPFi (High Point Furniture Industries) is pleased to announce the expansion of the Flex Tiered seating line. Flex Tiered seating was originally introduced in June, 2015 with straight two- and three-tier options plus two-tier corner modules. As with other HPFi seating series, Flex Tiered seating has expanded. Now included are 30° wedges in two- and three-tier models with inside facing and outside facing versions offered in each.

Flex Tiered Seating offers comfortable, multi-level seating for groups to gather for impromptu meetings or casual gatherings. It is ideal for classroom, conference room, lounge or open atrium areas. Flex makes perimeter spaces useful. Straight and wedge models may be grouped and re-configured to create a variety of seating spaces. With these additions, Flex has moved out from the perimeter space.

“The HPFi Tiered seating is expanding to include creative options that will enhance the collaborative experience” said Doug Gaines, Vice President of Sales for HPFi. “By adding 30 degree wedges the creative scalability for Flex is truly second to none.”

HPFi operates a 4,100 sq. ft. showroom and two manufacturing facilities in High Point, North Carolina with over 400,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For additional information on HPFi, please contact Tom Carrigan, Vice President of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336.431.7101 Ext. 2241, Fax: 336.431.0673, Email: TomC@hpfi.com.
