

# CIRRUS

The **Cirrus** collection offers the ultimate in comfort and style. The dual knit mesh backs provide a passive lumbar support that literally hugs your back. With easily adjustable height and width arms, the Executive and Management versions will adapt to practically any body size. A 5-position tilt-lock mechanism with tension adjustment is standard. A knee-tilt mechanism which moves the pivot point of the seat towards the front is also available. A unique, optional 6-position seat slider mechanism effectively extends the seat by 2.5" for those with longer legs. Reverse braking casters are standard on all but the cantilevered base guest chair to ensure that the chair stays in place unless you are seated.

Choose from 3 standard or 6 custom knit colors combined with thousands of available upholsteries plus both chrome or black bases to fit the decor of any office or meeting room.
