HPFI® Introduces Healthcare Collection Brochure

HPFI® (High Point Furniture Industries) is pleased to announce that a new brochure entitled ***Healthcare Collection***, designed for use with and by healthcare facilities, is now available. This print brochure highlights the wide range of furniture solutions from the front lobby to the patient room and practically every room in between.

The ***Healthcare Collection*** brochure states, “HPFI has one of the broadest varieties of reception and waiting room furnishings in styles, finishes and upholsteries to meet the rigorous requirements of everyday use. Similarly, casegoods for offices, treatment and patient rooms are numerous. Choose from an abundant selection of tables, stacking and nesting chairs for dining areas, break rooms and training rooms. There’s also a modular wall system as an alternative to costly millwork in treatment and patient rooms. HPFI builds all these collections to commercial standards to ensure years of use in the most demanding situations, yet with style and comfort.”

HPFI operates in two manufacturing facilities in High Point, North Carolina with over 440,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFI combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.
