HPFI Introduces New Healthcare Recliners

(High Point, NC) HPFI (High Point Furniture Industries) is pleased to announce the latest additions to its line of healthcare recliners. Four new models of the **Hannah** Treatment Chair and three new models of the **Haley** Minimal Resistance Recliner are now available.

Hannah is now available in bariatric widths that have a weight capacity of 750 lbs. There are also pillow back versions of **Hannah** in both standard and bariatric widths which provide a more casual, residential look to make the patient feel more at ease. Similarly, **Haley** is now available in a bariatric width with pillow back versions for both standard and bariatric widths. Additionally, there are new clear vinyl head rest covers for both standard and bariatric widths of **Hannah** and **Haley**. These covers help to extend the life of the upholstery when a healthcare material is not utilized.

Hundreds of standard and Woven Crypton fabrics, healthcare vinyls and even leathers are available on each recliner in only three weeks. HPFI also welcomes the opportunity to upholster using the customers' own materials (COM.)

HPFI operates in two manufacturing facilities in High Point, North Carolina with over 440,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFI combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.
