For Immediate Release

HPFI® Introduces *Trados Metal*

(High Point, NC) HPFI (High Point Furniture Industries) is pleased to announce the latest addition to its vast collection of guest/reception seating. The ***Trados Metal*** series features the same tri-arc arm design accented by fully upholstered seats and backs as found on the existing ***Trados*** wood frame series. The heavy gauge steel frames include steel cross braces providing a capacity of 350 lbs. per seat. ***Trados Metal*** is powder coated and then a clear coat finish to ensure years of use in the busiest and toughest waiting rooms and reception areas.

Trados Metal is offered in several versions: arm chair, settee, patient chair, bariatric chairs, high back patient chair, benches and ganged chairs. A wood or urethane arm cap is available on each model. Hook and loop fasteners on the back and a unique seat design enable easy field replacement. These same design elements are also incorporated into the existing ***Trados*** wood frame seating line for orders entered on or after August 10, 2009.

The ***Trados Metal*** line is available in hundreds of standard fabrics, vinyls and leathers in three weeks or less. Over 60 upholsteries are available in our Quick-Ship program in an industry leading three days! HPFI also welcomes the opportunity to upholster using the customers' own materials (COM.)

HPFI operates in two manufacturing facilities in High Point, North Carolina with over 440,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFI combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For more information, please contact Tom Carrigan, Director of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336-431-7101 Ext 2241, Fax: 336-431-0673, Email: TomC@hpfi.com.
