

Milan

Bistro Seating

Goes Great with Work.®

Milan Chairs are the perfect solution for cafeterias, break rooms and casual dining areas. Bistro models are available in both swivel and non-swivel versions with a 30" seat height for use at a standing height table or bar. The 18" seat height of the chairs makes them ideal for standard height tables. Each model features black metal frames with non-marring floor glides. Solid wood seats and backs are a dark mahogany finish. Choose from three different back designs - ladder, porthole or wavy - on chair and bistro height stools. By upholstering the seats of any model chair or stool, you can match or complement the room decor while added the comfort of foam padding. Choose from any of our hundreds of standard fabrics, vinyls, faux leathers or genuine cowhide leather or specify your own upholstery material.
