

Stratus

Goes Great with Work.®

Stratus presents the latest high design, high-quality and high-value casegoods for your fast-paced business environment. Included are multiple options of desks and storage units which feature anodized aluminum columns. Select from stylish frosted white acrylic panels and doors or from a matching or contrasting laminate.

The sleek, contemporary design of **Stratus** presents a whole new option of style. Coordinating aluminum column spacers give the desks, credenzas and pedestals a “floating top” appearance without sacrificing durability. 1-1/8” thermally fused laminate tops in 10 standard finishes plus 4 standard drawer / door pulls will blend with almost any decor.

Ample storage space in open and enclosed components provide easy access to all of your frequently accessed materials while keeping unsightly clutter to a minimum.

Concave, bow-front desk tops, bridges and tables provide plenty of work surface. They wrap around providing efficiency of space without the feeling of confinement.
