

Trados Metal

Goes Great with Work.®

The **Trados Metal** guest seating collection features a triarc arm design enhanced by a smooth silver finish frame. This elegant yet sturdy chair can be further enhanced by the addition of optional wood arm caps in thirteen finishes or in an anti-microbial urethane arm cap.

The steel cross brace and heavy gauge steel frame construction provide a 350 lb. capacity in the guest and patient chairs, the settee and bench. Bariatric chairs are rated to 500 lbs.

Other frame finishes available. Contact your HPFI representative for details.
