HPFi[®] Introduces Flex Mobile Seating Line

HPFi (High Point Furniture Industries) is pleased to announce another expansion of the **Flex** seating line. **Flex** seating was originally introduced in 2015 with Tiered modules and Ottomans. Since then, HPFi has added **Flex Lounge** and additional shapes, sizes and construction materials of Tiered and Ottoman seating. Now HPFi is expanding the **Flex** portfolio with **Flex Mobile**, a more versatile and mobile collaborative seating series.

Flex was designed for casual gatherings and making perimeter spaces useful for collaboration. In the "new normal" of providing meeting space with safe physical distancing, HPFi offers **Flex Mobile**. **Flex Mobile** features twin-wheel, locking casters in place of the glides for greater flexibility in moving and reconfiguring seating and meeting spaces. For complete details and access to images and marketing collaterals, visit https://www.hpfi.com/products_seating_lounge_flex.php.

“As part of the new normal, personal spacing will be a major challenge for workplace and educational environments.” said Doug Gaines, Vice President of Sales for HPFi. “Modularity and added mobility positions **Flex Mobile** as the perfect solution for addressing the personal spacing challenge.”

HPFi operates manufacturing facilities and a 4,100 sq. ft. showroom in High Point, North Carolina. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For additional information on HPFi, please contact Tom Carrigan, Vice President of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336.431.7101 Ext. 2241, Fax: 336.431.0673, Email: TomC@hpfi.com.
