HPFi[®] Expands Timbre Seating

HPFi (High Point Furniture Industries) is pleased to announce the latest addition to its portfolio of seating. **Timbre** bar height stools and four-leg chairs feature polypropylene seat and back engineered for comfort. The open design of the back is not only an aesthetic feature, but also a cool, breathable surface. The two-piece clam shell construction of the seat ensures a comfortable respite for longer-than-expected conversations at an HPFi **Matrix** touchdown table, **Eve** banquette of **Flex** Walls.

“**Timbre** is the first generation of new thermoplastic seating from HPFi that offers a cool solution for bar and counter height plus training room applications” said Doug Gaines, Vice President of Sales for HPFi. “**Timbre’s** perforated back design features a contemporary profile that complements today’s collaborative work and learning environments.”

All models of **Timbre** chairs are immediately available for shipment. Leg chairs are available with and without casters in the same colors of Black, Grey and Claret as the bar height stools. Additional information can be found on the HPFi web site at https://www.hpfi.com/products_seating_guest_timbre.php.

HPFi operates manufacturing facilities and a 4,100 sq. ft. showroom in High Point, North Carolina. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For additional information on HPFi, please contact Tom Carrigan, Vice President of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336.431.7101 Ext. 2241, Fax: 336.431.0673, Email: TomC@hpfi.com.
