6202 Loveseat

### Frame

---

- Frame of commercial-grade engineered hardwood
- Frame components are glued and stapled
- Reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort and durability; metal-to-metal connection to frame for long-term secure fastening.

### Suspensions

---

- Seat suspension built with heavy-duty, 8-gauge sinuous springs running front-to-back and secured to the frame at either end. Two tie-wires stretch left-to-right behind springs and are metal-fastened to each spring, creating a single, cohesively strong seat suspension system.
- Back suspension built with 11-gauge sinuous springs running top-to-bottom and secured to the frame at either end. Two tie-wires stretch left-to-right behind springs and are metal-fastened to each spring, creating a single, cohesively strong back suspension system.
- Seat and back suspensions are fiber covered to prevent metal springs from contacting foam.

### Foam

---

- CFC-free, Bio-Flex™ Hybrid includes soy-based foam
- Seat: 4.5" thick foam                      1.8 Density 36 CM
- Back: 3"    1.2 Density 33 CFR
- Back Filler: 4.5" x 4" x 43"              1.5 Density 45CFR
- CAL 117 rated

### Upholstery

---

- Standard fabrics tested for high wear (most more than 30,000 double rubs Wyzenbeek Wire Mesh test).
- See individual upholstery specification sheet(s) for details regarding stain resistance, anti-microbial, moisture resistance, CAL-133 compliance, etc.
- Available in textile or coated fabric upholstery in a single or two-tone

### Exterior

---

- Flared arm design and tight seat
- Exposed wood legs of solid hardwood available in a choice of 12 finishes
- Double-needle trim on arms, seat and back to reinforce sewing

### Dimensions

---

- Overall: 59"W x 32.5"D x 34.5"H
- Seat: 44.25"W x 22"D x 19"H
- Arm Height from Seat: 8"
- Back Height from Seat: 16.75"

### Warranty

---

- Limited Lifetime
- Meets or exceeds ANSI/BIFMA 5.4 Lounge Seating

### Ships

---

- Fully Assembled by Truck
- Ship Weight: 113 lb.
- Ship Cubes: 57

---

Standard material use in products in accordance with the following standards:

- LEED for Commercial Interiors EA Credit, 50% Construction Waste Diversion (1 point)
- LEED for Commercial Interiors EA Credit, 75% Construction Waste Diversion (1 point)
- ANSI/BIFMA e3-2017 (level®) Credit 6.4.2.2, 100% solid waste diversion
